## Biz Retail Point-of-Sale Solution

Managing Your Retail Business Efficiently

Whether you're a business owner of a single retail store or a chain of stores, or you have a vision to grow your single store to a chain of stores, we have the solution for your Point of Sales (POS) needs. Biz POS™ for Retail provides a solution that's easy to use, and flexible. Our solution grows with your business, and sets the foundation for your future growth.

### Key Features

- Touch-screen with customized screens and graphic user interface
- Multi-currency and cards payments
- Promotion Settings
- Membership / VIP Settings
- Multi Terminals
- Barcode Scanning for products
- Price Levels Settings
- Easily link up all your outlets over the internet
- Remotely access your sales reports from a central location
- Stock transfers to multiple remote outlets
- Generate sales and management reports
- Assign roles and access restrictions

### Key Benefits

- Reducing the amount of time it takes to complete transactions and thereby allowing store owners and managers to spend more time on revenue-generating activities.
- Improving customer service by speeding sales transactions, reducing transaction errors and minimizing out-of-stock conditions.
- Affordable with quality support
- Free upgrades, remote or on-site training
- Centralized systems management and cost effectiveness

Should your operations require additional features or the need to interface with other systems, we are ready to partner with you to develop customized solutions. Our goal at Bizpoint is to ensure return on your IT investment and to make the process of installation, training and on-going performance of the system worry-free.
