BIZPOINT

DENTAL MANAGEMENT SYSTEM

Bizpoint Dental Management Software is a state-of-the-art Enterprise Resource Planning (ERP) system to integrate and streamline all operations within a dental practice, so as to enhance operational control and simplify patient appointment-booking processes, making your practice more efficient, your staff more productive and your customers more satisfied.

Specially designed and refined to cater to the needs of dentists, the solution helps smoothen out your daily processes, including tracking and monitoring capabilities, sales contracts and order confirmation as well as automated billing, so that you can focus on what really matters - building and expanding your business.

Equipped with the finest tools to simplify your tasks and increase your efficiency, Bizpoint Dental Management Software is the ideal partner for your dental practice.

Benefits

- Reduced paper usage with digital reports
- Real-time updating of information
- Greater accuracy of patient information with detailed content for analysis
- Faster processing and response time for each transaction
- Achieve competitive advantages by improving and streamlining business processes
- Better monitoring and management of entire operations
- Provides a unified database to improve information access by both management and staff

Smoother Operations
for a Better Dental Experience
